<sup>a</sup>Each bar represents the percentage that each age-sex group comprises of the total population.

## Socioeconomic Profile

## Emmet County

The median household income in Emmet County is less than the median household income of the state. More households in Emmet County are in the \$50,000 to \$99,999 household income group while more of Iowa households are in the \$100,000 or more household income group. The median value of owner-occupied housing can vary among counties. The median value of owner-occupied housing units is lower in Emmet County than for the state. There is a higher percentage of vacant housing units in Emmet County than there is for the state. Many housing units in Emmet County were built prior to 1940. Emmet County has a lower percentage of college graduates than does the state.

**Median<sup>4</sup> Household and Per Capita Income, 2018-2022<sup>2</sup>**

	County		State	
	Estimate	MOE*	Estimate	MOE*
Total households	3,881	+/- 139	1,290,139	+/- 4,032
Less than \$14,999	8.6%	+/- 2.1%	7.8%	+/- 0.4%
\$15,000 to \$34,999	17.1%	+/- 2.0%	15.2%	+/- 0.6%
\$35,000 to \$49,999	14.2%	+/- 3.3%	11.9%	+/- 0.2%
\$50,000 to \$99,999	36.3%	+/- 2.7%	32.2%	+/- 0.6%
\$100,000 Or More	23.7%	+/- 2.4%	32.9%	+/- 0.8%
Median <sup>4</sup> household income	\$64,461	+/- \$5,222	\$70,571	+/- \$395
Median <sup>4</sup> family income	\$76,332	+/- \$6,142	\$90,921	+/- \$579
Per capita income	\$34,657	+/- \$3,888	\$37,949	+/- \$241

**Educational Attainment, 2018-2022<sup>2</sup>**

	County		State	
	Estimate	MOE*	Estimate	MOE*
Population 25 and older	6,678	+/-88	2,131,202	+/-967
High school graduate or higher	87.3%	+/-2.9%	93.0%	+/-0.1%
Bachelor's degree or higher	15.2%	+/-2.8%	30.3%	+/-0.3%

\*MOE = the margin of error for American Community Survey estimates<sup>2</sup> which is a numerical value that when added to or subtracted from the point estimate value gives the range of a 90% confidence interval around the estimate.

In Emmet County there is a higher percentage of workers in management, business, science, and arts occupations than any other occupation category while the production, transportation, and material moving occupation category makes up 27.0% of occupations of the civilian employed population in the county.

**Occupation of the Civilian Employed Population, 2018-2022<sup>2</sup>**

	County		State	
	Estimate	MOE*	Estimate	MOE*
Civilian employed population 16 years and over	4,871	+/- 230	1,627,434	+/- 5,740
Management, business, science, and arts	27.8%	+/- 4.1%	38.1%	+/- 0.3%
Service	17.9%	+/- 3.8%	15.5%	+/- 0.2%
Sales and office	17.4%	+/- 2.9%	19.7%	+/- 0.2%
Natural resources, construction, and maintenance	9.9%	+/- 2.1%	9.5%	+/- 0.2%
Production, transportation, and material moving	27.0%	+/- 4.6%	17.2%	+/- 0.2%

**Housing Characteristics, 2018-2022<sup>2</sup>**

	County		State	
	Estimate	MOE*	Estimate	MOE*
Total units	4,513	+/- 22	1,417,064	+/- 977
Vacant	14.0%	+/- 3.0%	9.0%	+/- 0.3%
Occupied	86.0%	+/- 3.0%	91.0%	+/- 0.3%

<sup>a</sup>for whom poverty status is determined, <sup>b</sup>female householder, no spouse present, \*\*\*MOE is high. Use state estimate.

## Notes and Source Information:

<sup>1</sup> U.S. Census Bureau; Decennial Censuses 1940 - 2020

<sup>2</sup> U.S. Census Bureau; American Community Survey 2018-2022

<sup>3</sup> For the 2020 Decennial Census, households are divided into subcategories by two different methods. One method (family or nonfamily) is based on the presence or absence of family relationships among the household members and the householder. Using family relationships (birth, marriage, or adoption) has been the usual way to classify households, and the data using this method has good comparability between 2010 and 2020. In 2020, the Census Bureau introduced an additional method to divide households into subcategories. This second method (couple or noncouple) is based on the presence or absence of a couple relationship for the householder. The relationship can be as a married spouse or as an unmarried partner and can be of the opposite or same sex. The 2020 data reported for the second method (except for married couples) does not have good comparability with data from 2010. In this profile, the 2020 data are reported, but items for 2010 are omitted.

<sup>4</sup> Median is the middle value of a distribution.

<sup>5</sup> The age dependency ratio compares, by age, those typically not in the labor force with those who typically are in the labor force. Old Age dependency is persons 65+ per 100 persons age 18-64. Child dependency is persons under age 18 per 100 persons age 18-64. The total age dependency ratio is persons under age 18 plus persons 65 or older per 100 persons age 18-64.
